

RAJENDRA KARKI

Full-Stack Developer

Kathmandu, Nepal · Karkirajenda22@gmail.com
github.com/karkirajendra · linkedin.com/in/rajendra-karki-316408279

SUMMARY

BCA student (7th semester, Tribhuvan University) and full-stack developer building production-ready web apps with MERN, Laravel, and Vue.js. Focused on clean UI, reliable APIs, and shipping end-to-end features.

SKILLS

Frontend: React.js, Vue.js 3, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, Laravel, PHP

Databases: MongoDB, MySQL, SQLite

Languages: JavaScript, PHP, Java, C, C#

Tools: Git, GitHub, Vite, JWT Auth, REST APIs, Cloudinary

EXPERIENCE

Full-Stack Developer — Independent Projects

2025 — Present

- Built JWT role-based auth, dashboards, and REST APIs across multiple apps.
- Shipped production workflows: uploads, search, booking, and admin analytics.

MERN Stack Training — N9-Solution

2024 — 2025

- Strengthened React patterns, API design, and modern tooling (Vite, Git).
- Delivered full-stack assignments with authentication, CRUD, and deployment basics.

PROJECTS

RoomSathi — Property Rental Platform (MERN)

- Marketplace with 3-role JWT auth, advanced search, Cloudinary uploads, booking flow.
- Admin analytics dashboard and 50+ REST API endpoints.
- GitHub: github.com/karkirajendra/sixthSem-project

Appointment System — Booking Management (Laravel)

- Dual auth for owners/customers, calendar booking, conflict detection, roster management.
- GitHub: github.com/karkirajendra/Appointment-System

Futech — Blog Platform (Laravel + Vue.js 3)

- Decoupled REST API + Vue SPA with full blog CRUD and Vite-based development.
- GitHub: github.com/karkirajendra/futech_project

Expense Tracker — Personal Finance (PHP + MySQL)

- Daily/weekly/monthly categorization, transaction history, and summary reports.

EDUCATION

Bachelor of Computer Applications (BCA) — Tribhuvan University

7th Semester · Kathmandu, Nepal
